Costa Rica solar power parking lot

Overview

SOLTECH collaborated with their sales agent Project Master on a solar parking lot lighting project for Coyoil Free Zone in Costa Rica. We provided 28 SUNLIKE 20W for this parking lot project (Lots 5 & 6) .

SOLTECH collaborated with their sales agent Project Master on a solar parking lot lighting project for Coyoil Free Zone in Costa Rica. We provided 28 SUNLIKE 20W for this parking lot project (Lots 5 & 6) .

The ANDE is a labor union in San José, Costa Rica. The whole facility is 7,000 square feet with a large parking lot area in front of the building. Through close collaboration with Project Master, SOLTECH provided an all-in-one solar parking lot lighting solution to the site and received excellent performance feedback from the client.

To capture solar energy, a covered parking lot with 690 solar panels was installed at the Proquinal Costa Rica headquarters, in Coyoil de Alajuela, making efficient use of space. The energy that is captured is subsequently stored in an innovative battery system, the only one of its kind in Costa Rica.

To capture solar energy, the Proquinal Costa Rica headquarters in Coyoil de Alajuela, installed a covered parking lot with 690 solar panels – an efficient use of space. The captured energy is subsequently stored in an innovative battery system, the only one of its kind in Costa Rica.

SOLTECH has rich experience in retrofitting facilities throughout Costa Rica with solar parking lot lighting solutions. Teradyne is a service center established in 2000 as a new facility at Coyoil Free Zone (CFZ). During the last few decades, the facility has doubled in growth and created new opportunities for local employment. How much solar power can Costa Rica use?

Utilising about 6% of total solar power potential and 25% of Costa Rica's wind power potential would suffice to supply enough energy to do so. Electricity costs can be reduced by almost US\$ 1 cent per kWh of power generation by deployment utility-scale and decentralised renewable energy installations.

Why should you choose Costa Rica solar solutions?

Costa Rica Solar Solutions designs custom solar system solutions based on the energy needs of your home or business. Clean energy offers great return on your investment and allows you energy independence. Costa Rica Solar Solutions has completed many of the largest commercial solar systems in the country.
