Contracting and Funding

Projects with DER-Asset Optimization

Securing funding and structuring a contract may be the hardest parts of developing new distributed energy resource (DER) projects. Even with the Inflation Reduction Act set to catalyze billions of dollars of investment in renewable energy projects, financial viability - or the perceived lack thereof - has become a bigger barrier to deployment than technology. ...

Democratizing Decarbonization with Cloud-Native Building ...

Perhaps most importantly, cloud-native systems future-proof buildings against evolving energy regulations and market demands, creating grid-interactive efficient buildings that the U.S. Department of Energy envisions operating dynamically with the grid to make electricity more affordable while meeting the needs of building occupants.

The Values of CPower

This was my thought process when my wife Tsvetelina and I founded CPower in 2015 after breaking away from our previous project, CWind, to form a company that prioritises quality over quantity. Starting from our kitchen table, we grew CPower by focusing on the manpower market, recruiting offshore workforces, and deploying them to the right
