What is solar tax and what are its costs?

Solar tax is a recurring monthly fee paid to the local energy provider, for the maintenance of the connection to your residential property. This fee is typically integrated into the overall energy pricing structure.

During your visit to our solar booth, we'll provide a detailed quote that outlines the cost, financing options, and projected savings associated with your Solar installation. Keep in mind, that our Kooyman Solar specialists are here to support you throughout the entire process. Can I get a solar loan in Curacao?

As you can see the more electricity usage you have, the faster you will earn

back your one time investment. Many banks already offer so-called "green loans", financing the purchase of your solar system on Curacao for a monthly installment that may be even lower than the monthly price you pay for electricity now.

How much does electricity cost on Curacao?

On Curacao, the costs per kWh calculated in 2012 is ANG 0,73. If you are a home owner, commercial property owner or owner of an industrial building on Curacao, please have a look at your electricity bills and calculate the average amount of kWh you use and the money you spend on electricity per year.
