Electrical Energy Storage (EES)

Mersen added-values: In addition to cutting-edge solutions for battery and inverter protection, Mersen provides expertise and support for fuse selection and coordination between the different elements of the entire EES system from inverter to module as well as fully customized design and optimization for engineered products (bus bar, capacitors)

FUSES FOR BATTERY ENERGY STORAGE SYSTEMS

Fuses can be easily replaced without the accumulation of additional downtime. BESS fuses' low watt loss prevents energy loss, which efficiently minimizes wasted power from components. Their compact size makes designing high-energy density systems possible.
