

European Solar Energy Storage

Customized portable solar solution turnkey solution price in Germany

Overview

What does a full turnkey company do?

Full turnkey service for training, process, ramp up and production to help kickstart your business. Assistance in all phases of the project from the start until production is running. Assistance in all steps of the project. These include helping with technical data for panel datasheet, purchasing of material, etc.

Who makes KPV solar panels?

KPV uses modules of the in-house partner KIOTO Photovoltaics GmbH for its large PV power plants. These modules are produced in Austria according to ISO 9001/2000 Standards with all required IEC certificates (IEC 61215, IEC 61730). KPV modules withstand highest snow loads (5400 Pa) and are extremely hail resistant (twice the IEC requirements!).

Why should you choose a solar company in Germany?

Their specialisation in large-scale solar projects has enabled them to accumulate an impressive installed portfolio capacity of over 1.5 GWp. Situated in Hirschberg, the family business contributes significantly to Germany's transition towards sustainable energy solutions.

Customized portable solar solution turnkey solution price in Germany

Solar projects , Turnkey photovoltaic systems , ErEne

Thanks to the price advantages in purchasing as a photovoltaic wholesaler on the one hand and our experience in the realisation of solar projects on the other, we offer customised services at ...
