

European Solar Energy Storage

Cyprus tubewell solar scheme

Overview

What is the 'photovoltaics for all' scheme?

Cabinet on Thursday approved the 'photovoltaics for all' scheme which will open for the public to apply for at the end of February. The scheme entails five categories aimed at making solar energy and roof insulation accessible to all homes. Installers of photovoltaics and roof insulation are expected to begin registration.

How much does a PV system cost in Cyprus?

It is worth noting that the estimated price of a 3 kWp system is about 4,300 euros, a 4 kWp system will cost about 5,250 euros. After receiving the Base Grant, Cypriots with the Base Grant will have an average PV system savings of approximately 18%. For socially unprotected consumer groups, the savings will average about 65%.

What is the average PV system savings for Cypriots?

After receiving the Base Grant, Cypriots with the Base Grant will have an average PV system savings of approximately 18%. For socially unprotected consumer groups, the savings will average about 65%. The 3 kWp system will produce about 5,070 kWh per year, and the 4 kWp system will produce about 6,700 kWh per year.
