Denmark moixa smart battery

Overview

Moixa Smart Battery systems are designed to be installed alongside solar panels to maximise the use of solar energy in the home and lower the owner's energy bills. As soon as solar PV starts generating more energy than the household needs, the battery will fill from excess solar and it will discharge when the household needs more energy than the solar can cover. The battery can also be charged from lower-cost grid energy for homes on time-of-use tariffs, bringing additional ben.
