

## European Solar Energy Storage

# Did thomas edison talk about solar energy

## Overview

---

What did Thomas Edison say about solar energy?

I'd be happy to hear from any Edison scholars about this issue. In 1931, Thomas Edison supposedly told his friend Henry Ford: "I'd put my money on the sun and solar energy. What a source of power!.

Why is Thomas Edison important today?

Thomas Edison, one of the world's most prolific inventors and whose contributions changed modern life, understood the importance of solar power in the world's future energy mix and the danger of an over reliance on fossil fuels - and he had this understanding nearly 80 years ago. Edison is associated with many innovations we take for granted today.

What did Thomas Edison believe?

Thomas Edison believed that sunshine, wind, and tides should be employed to generate energy for humankind. Quote Investigator has solid evidence of this position, expressed during a 1910 interview. The potential energy available from these sources was enormous.

What did Thomas Edison say to Henry Ford?

In 1931, Thomas Edison supposedly told his friend Henry Ford: "I'd put my money on the sun and solar energy. What a source of power! I hope we don't have to wait until oil and coal run out before we tackle that."

When did Thomas Edison pass away?

Thomas Edison died in 1931. Quote Investigator: There is solid evidence that Edison believed that sunshine, wind, and tides should be employed to generate energy for humankind. 'I hope we don't have to wait until oil and coal run out before we tackle that.' (This quote might have been made in the context of renewable energy, but it doesn't directly answer the question about the year of Edison's death.).

What did John Firestone say about solar power?

According to the quote, John Firestone details a conversation in which Edison expressed his belief in solar power. 'I'd put my money on the sun and solar energy,' said Edison. 'What a source of power! I wish I had more years left!'

## Did thomas edison talk about solar energy

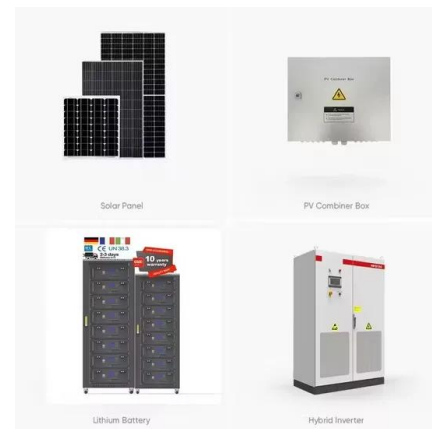

### Thomas Edison Saw the Value of Renewable Energy

He saw the virtually untapped potential of renewable energy sources--such as wind power and solar power --that could be harnessed and put to work for the benefit of ...

### Quote Origin: I'd Put My Money on the Sun and Solar Energy

Question for Quote Investigator: A fascinatingly prescient remark about energy has been attributed to the famous inventor and entrepreneur Thomas Edison: I'd put my money ...

### Thomas Edison Saw the Value of Renewable Energy

He saw the virtually untapped potential of renewable energy sources--such as wind power and solar power --that could be harnessed and put to work for the benefit of mankind.

### Edison's famous quote

In 1931, Thomas Edison supposedly told his friend Henry Ford: "I'd put my money on the sun and solar energy. What a source of power! I hope

we don't have to wait until ...

## What did Thomas Edison say about solar energy?

Thomas Edison reportedly said, "I'd put my money on the sun and solar energy. What a source of power! I hope we don't have to wait until oil and coal run out before we tackle that."

## Thomas Edison solar quotes

In other words, that all its energy is not self-constructed but that there is a mysterious something in the atmosphere that scientists have not found that is drawing out those infinitesimal atoms ...

## Thomas Edison Was Right About Solar Power

Famed inventor Thomas Edison brought us electric lights, phonographs, movies and even the first research and development laboratory. But in 1931, he also was one of the ...

## Thomas Edison Was Right About Solar Power

Famed inventor Thomas Edison brought us electric lights, phonographs, movies and even the first research and development laboratory. But in 1931, he also was one of the first promoters of renewable energy - ...

### [Edison's famous quote](#)

In 1931, Thomas Edison supposedly told his friend Henry Ford: "I'd put my money on the sun and solar energy. What a source of power! I hope we don't have to wait until oil and coal run out before we tackle that."

## Thomas Edison: For 100% Renewable Energy, Especially Solar

Thomas Edison was way ahead of his time, and was clearly a fan of the 100% renewable energy idea (a true possibility), and especially tapping into our insanely abundant ...

### [Portal:Technology/Selected quote/9](#)

In conversation with Henry Ford and Harvey Firestone (1931); as quoted in Uncommon Friends : Life with Thomas Edison, Henry Ford, Harvey Firestone, Alexis Carrel & Charles Lindbergh ...

### Thomas Edison solar quotes

In other words, that all its energy is not self-constructed but that there is a mysterious something in the atmosphere that scientists have not found that is drawing out those infinitesimal atoms and distributing them forcefully and ...

- Voltage range: 91.2-947.2V
- >6000 cycles (100%DOD)
- Rated battery capacity: 216KWH (customizable)
- EMS communication: 4G/CAN/RS485

### **Thomas Edison - Solar Power Visionary**
