Energy efficiency compliance after alterations or conversions

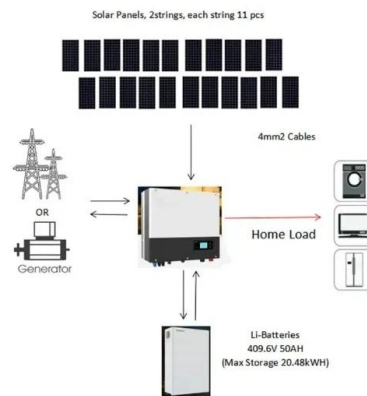

Relevant for ship owners and managers as well as flag states. What is a "major conversion"? Under MARPOL Annex VI (Regulation 5.4), the Energy Efficiency Existing Ship Index (EEXI) and, if relevant, the Energy Efficiency Design Index

(EEDI), must be recalculated and surveyed on board in the event of a major conversion, as defined in Regulation 2.2.17.

Energy Transition Outlook for Spain 2024

This Energy Transition Outlook report tackles the energy future of Spain through to 2050. The analysis, the model framework behind it, the methodology, the assumptions, and hence also the results lean heavily on DNV's global forecast, Energy Transition Outlook 2023 (ETO 2023), with the market knowledge and experience of the energy team working in Spain for the last 30 years.
