.

What is a hybrid solar Forum?

A non-technical forum to help you understand the in's and out's of solar. Hybrid solar is grid tied PV with battery storage and is becoming more popular all the time. Ask your questions about solar modules, mounts, inverters or any other part of your solar energy system. If you want to share the specs for your system, then you can post them here.

Can a solar power system run a refrigerator?

I put together a small solar power system for emergency backup power. I tested it to run just a refrigerator and the battery went from 27+ volts (daytime) to 22 volts in a couple of hours after sunset. I'm using 2 new AGM 250AH 12v batteries connected in series. I load tested the batteries (starting with 13.5v) and they showed 12v under load.
