Do not call Isit solar energy group

Overview

Register your phone number on the national do not call registry list. You can register by visiting this website, or you can register by calling 1-888-382-1222. Call from the mobile phone or landline that you want to register on the no call list. Is a for-profit company soliciting solar panels by phone?

We have received numerous reports that a for-profit company called American Solar is soliciting by phone. The American Solar Energy Society (ASES) differs from the business "American Solar." ASES does not make outgoing solicitation calls or sell solar panels, as we do not engage in telemarketing of any kind.

Are solar call companies too good to be true?

A lot of American solar call companies are notorious for offering too good to be true deals upfront only to disappoint the customer when the system wasn't actually free. Posing as an electricity utility company or government associate: I myself have received many of these calls.

Should you be monitoring solar energy phone calls?

Keep an eye out for solar energy phone calls when monitoring for spam. In the solar industry, many telemarketers employ certain tactics to get an impulse reaction out of you. Some of these tactics include: Any mention of a sweepstakes or raffle: that you've been specially selected or won a free solar system / free panels.

Do telemarketing calls change your view on solar?

When homeowners are repeatedly targeted with unwanted telemarketing calls with "free" or cheap solar installations, it changes their view on solar as a whole. There are many reports of pop-up solar companies that come up out of nowhere, offer subpar panels, do the installation poorly, and go out of business.

Do pushy solar salesmen lower the value of solar?

Pushy, aggressive solar salesmen lower the value of solar. When homeowners are repeatedly targeted with unwanted telemarketing calls with “free” or cheap solar installations, it changes their view on solar as a whole.

How do I choose a solar company?

When getting solar, similar to choosing a vehicle off a car lot you should implement research to help make an educated decision. Utilizing google searches, solar review sites, and word of mouth will help you find out how many reviews the company has, the quality of their reviews, and how long the company has been in business for.
