# Does bern optics have energy storage products

## Overview

---

Spoiler alert: Yes, Bern Optics does offer cutting-edge energy storage solutions—but let's dive deeper into how they're making waves in this electrifying sector. Bern Optics isn't just hopping on the bandwagon.

Bern Optics specializes in manufacturing custom precision optical components, handling projects from prototype to volume production.

The Bern Optical Energy Storage Power Station uses Desay Battery's self-developed 280Ah battery cells, and all of the battery cells, battery modules, battery clusters, and container integration adopt independent design solutions, with high energy efficiency, long cycle, high safety, etc.

This is the supplier profile of Bern Optics Inc., with address and other contact information, and with 10 registered photonics product categories.

## Bern Optics Inc

Bern Optics, Inc. has developed special expertise producing micro - including submillimeter - optical components: singlet lenses (with combinations of plano, concave or convex surfaces), achromats, windows, mirrors, prisms, apertures, balls and more.

## Bern Optics Inc

Manufactures custom precision optics including lenses, prisms, apertures, windows and mirrors with dimensions and curvatures smaller than 1mm. Prototype and production quantities of components with spherical, cylindrical and plano surfaces.
