Generate your own clean energy from the sun for free with solar. Add Powerwall to store your energy for use anytime you need it. Tax incentives and flexible financing options may be available to help you get the best price for your solar ...

Can utility deny solar install due to too many people having

I had a solar company come out for an install estimate and the rep kept claiming I needed to act right away because my neighborhood could become a 'blackout' zone for solar installs. He claimed my utility provider can deny new solar installs if the area is too saturated with installs already. Is this a real thing or aggressive sales bs? I live in New Jersey if that matters.
