

European Solar Energy Storage

Dominican Republic aeg power solution

Overview

What makes AEG a good power supply & Charger?

Also available in earthquake-proof execution (qualified for nuclear power plants). AEG's latest generation of robust, industrial rectifiers, chargers and DC Systems use both analogue and proven microprocessor controlled thyristor technology to provide high-reliability power supply and battery charging capabilities.

What is AEG protect MIP?

AEG's latest generation of products are made robust by using proven microprocessor controlled thyristor technology to provide high-reliability power supply and battery charging capabilities. The Protect MIP offers a new way of achieving reliable and cost-efficient protection for all offshore applications.

What is AEG protect 8?

AEG's brand new modern Protect 8 is a true on-line double conversion UPS, with low maintenance cost, reduced operating costs, air conditioning requirements and battery Ah requirements.

Dominican Republic aeg power solution

AEG Power Solutions B.V.

The Protect Flex of AEG Power Solutions is a new UPS system concept that combines a modular architecture based on 10 and 15 kVA/kW hot swappable power modules, with a large customizable set of options. The system has a robust design which encapsulates AEG Power Solutions' unmatched expertise for industrial applications. It is suitable for
