

European Solar Energy Storage

Donca energy group Fiji

Overview

What is the energy situation in Fiji?

It is a small island developing state (SIDS) that is heavily dependent on imported fossil fuel for its energy needs. The paper attempts to determine the past and current energy situation in Fiji, challenges faced and strategizes to overcome these challenges. In 2014, Fiji generated 859 GWh of grid electricity from 259.8 MW of power plants.

How does Fiji provide access to modern energy?

The access to modern energy to rural or remote islands and villages in Fiji is made possible by external aid; namely Chinese, Japanese, US, Korean, Turkish governments, to name a few. The technologies and expertise is provided by external aid. This assists GoF to install and commission renewable energy projects.

What are the responsibilities of energy institutions in Fiji?

The energy institutions in Fiji (Table 8), are responsible for energy planning, energy policy making, energy project financing, determination of energy prices (electricity tariff and fuel prices) and energy research. These institutions need to be well financed and adequately staffed to carry out its responsibilities effectively.

What are the energy challenges and threats in Fiji?

Fiji has energy challenges and threats which are unique to SIDS. The following sub-sections discuss some of these which exist in Fiji. Fiji experiences floods, landslides and cyclones every year. This is due to the location of Fiji in the South Pacific Convergence Zones and mountainous volcanic islands.

Does Fiji have a national energy policy?

Using external aid (German Technical Cooperation (GIZ) - Deutsche Gesellschaft für Internationale Zusammenarbeit and United Nations

Development Programme (UNDP)), Fiji has been able to successfully review National Energy Policy for Fiji which acts as a guideline for the goals and objects to achieve by 2030.

Does Fiji have a successful power sector reform process?

Political situation of a country is one of the factors which determine the success of the power sector reform process. Despite the political upheavals, Fiji has some degree of success in its reform in electricity sector. However, this success has not been to what it was initially planned .
