# Dpa africa Finland

## Overview

---

What does DPA stand for?

Distributed Power Africa (DPA) is a distributed energy company, leading in innovative renewable solar energy solutions for Africa. The company was launched in 2011 and is a subsidiary of Econet Global, and has operations across Africa, including in Kenya, South Africa, Zimbabwe, Zambia, DRC, Ivory Coast and Togo.

What does DPA do?

DPA supplies Commercial & Industrial businesses with efficient solar energy, without an initial capital outlay and on lease financing terms. Our goal is to ensure that businesses and individuals have access to affordable and efficient green energy at zero start-up cost.

What is Finland's commitment to the Africa strategy?

Finland is committed to international and national strategies and principles (e.g. Agenda 2030, International strategy for Higher Education and Research 2017-2025, Finland's development policy and development cooperation) that should also be considered with the implementation of the Africa Strategy.

How do I contact dpaafrica?

Download the attached form and email it to [enquiries@dpaafrica.com](mailto:enquiries@dpaafrica.com). This will help us understand which system will work for you. For Rural and Residential solar solutions, visit [Overall](#), though, most titles at casinos with live blackjack UK follow the basic rules of the game. Bitcoin This is an necessary category.

Why does Finland need a political relationship with African countries?

Having political relationships with African countries is increasingly important to Finland. The growing markets of many African countries make these

countries more potential trading partners for Finland. Finland's relations with the sub-Saharan countries are based on successful development cooperation on which broader cooperation can be built.
