Solar Farm Plan Submitted - Gef - Isle of Man

'The solar farm would generate enough power to meet more than 7% of the Isle of Man's current electricity demand and support the Government's aim for electricity on the Island to be 100% green by 2030.' The project represents an investment of around £30m across the 40-year anticipated life of the project, with no public investment.

Douglas council to build solar energy farm

Douglas council is to start producing its own sustainable solar energy. The local authority has approved funding for a solar farm to power some of its facilities. The generation facility would be built in Braddan and have a life span of around 20 years. It's thought the savings will mean it'll effectively pay for itself within five to seven years.

Why are Solarscopes filters from Isle of Mann so expensive?

Why are Solarscopes filters from Isle of Mann so

expensive? - posted in Solar Observing and Imaging: In my quest to purchase another H-alpha solar filter I came across filters from Solarscopes located in the Isle of Mann. I was shocked at the prices. Looks like you can purchase a Lunt 100mm for the same price as a 50mm filter from Solarscopes.
