What is Redux recycling?

But for us at Redux Recycling, this is not a problem, it is our passion. As a full service, we undertake the recycling of all battery manufacturing waste, as well as all types of lithium-ion batteries. Our state-of-the-art technology enables us to achieve high recycling rates, already exceeding the upcoming Battery Regulation targets.

Why should you choose Redux?

With our leading recycling technology and holistic approach, we make a significant contribution to conserving natural resources and promoting a sustainable circular economy. Redux offers a professional and reliable service, including receipt or collection and recycles all types of lithium-ion batteries and rechargeable batteries.

Are subsidies for EVs enough for Guayaquil?

Subsidies for EVs, they agreed, are not enough — Guayaquil needs investment in EV infrastructure and regulation, particularly around charging stations.

Is Redwood materials acquiring Redux?

Redwood Materials has acquired Redux - read the official announcement for details. Lithium-ion batteries are the driving force behind powering smartphones, electric cars, e-bikes and many other devices. At a time when mobile communications, electric vehicles and DIY markets are growing, the use of lithium-ion batteries is also increasing rapidly.

Is it difficult to use electric taxis in Guayaquil?

Yet, despite the passengers' ever-growing need for taxis and drivers' interest in making the most of the EV subsidies, it is "difficult to use an EV given the current state of charging points," Burbano told Rest of World. Guayaquil was not the first Ecuadorian city to lean into electric taxis.

## **Priority Mail International: Not a Priority**

I asked my daughter to ship these docs Priority as long as they had tracking numbers. (I knew tracking numbers were important because the ladies at the Correos de Ecuador on Av. President Borrero and Gran Colombia always ask for them.) Priority was \$24 compared to \$75 for the "3 to 5 day" Priority Mail Express (formerly Express).
