

European Solar Energy Storage

Elmeasure Venezuela

Elmeasure Venezuela

Solution Brief

Elmeasure India / Elecon Measurements - Empowers you to Manage Power - Elmeasure Offers Energy management Software / Energy Monitoring System / Energy Monitoring Solutions - (EMS /SCADA),Demand Controller, Multi ...

Energy Management System

Elmeasure Energy Management System is a centralized IoT platform that performs periodic assessments to monitor, measure and perform predictive analysis to help enterprises elevate their productivity and efficiency.

Automatic Changeover with Current Limiter (ACCL)

Eliminate manual source changeovers with our Automatic Changeover with Current Limiter (ACCL). Enjoy improved convenience with microcontroller-based changeover and neutral isolation. Intelligent re-connection and individual phase overload monitoring for 3 phase protection. Option for ACCL with prepaid metering, power supply can be restored through ...

Smart 3E Kwh Calculation

Elmeasure meter reads from zero WH and giving the perfect reading it is so simple - Meter starts with reading 1,2,3..etc up to 9999 WH - [To convert WH to KWH is Divide by 1000] . Example If the reading is 7000, divide it by 1000, It is 7 Smart 3E programming.

Elmeasure , Energy and Power Monitors , IoT Energy ...

Discover IoT-enabled energy meters that offer real-time data, remote monitoring, and smart energy management. Enhance energy efficiency with cloud-based ...

Manufacturing and Industry Process Monitor

Elmeasure Energy & Process Monitor devices help to measure energy & processes together. Maintenance alerts based on run hours, production cost analysis - Cost Audits, Energy Audits.

Elmeasure , Protection and Control , Demand Controllers

Maximise power quality and system reliability with our Demand Controllers. Enjoy event recording, unbalance detection, and optional digital output. Ideal for measuring different electrical loads in control panels with dynamic and ...

Communication Gateway , RS485 Gateway

Elmeasure Gateway, a multi-protocol communication device tailor-made for the Industrial IOT world, has a web browser for configuration with account-based secured access.

Elmeasure , Energy and Power Monitors , Basic Meters

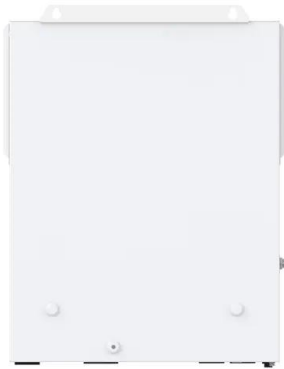

Get reliable and cost-effective electrical system operations with our Basic VAF Meters. Features include measurement range of 20mA to 6A, average & phase-wise information, and alerts for over-voltage, under-voltage, and over-current. Safe and easy wiring with voltage and current terminals on opposite sides, digital panel meter, Panel meters

Branch Circuit Power Meter , Power distribution Unit

Elmeasure multi-channel load manager, a single compact device to monitor multiple electrical loads. The branch circuit meter (BCM) provides real-time views of power usage at the

panelboard.

Protection and Control , Earth Leakage Relays (ELR)

Protect lives & equipment with Earth Leakage Relays. Accurately detect earth leakage hazards with class 2.0FS relays, programmable trip time, and continuous display of trip leakage current. Wide range of current options from 30mA to 30A, ideal for protecting motors, transformers, feeders & generators.

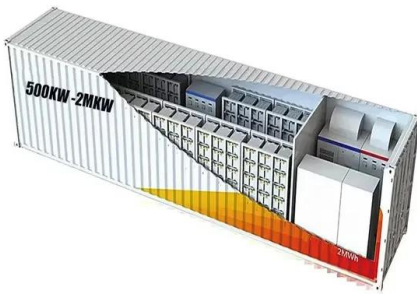

Energy and Power Monitors , Branch Circuit Power Monitors

Maximize space & power efficiency with our compact Branch Circuit Power Monitors. Monitor multiple channels and loads simultaneously with accuracy class 1.0 and 0.5 standards. Faster communication through RS485, 25+ parameters displayed. Ideal for high-density power

[ELMEASURE , LinkedIn](#)

ELMEASURE , 15.809 seguidores en LinkedIn. One of the largest manufacturer of digital panel meters in India & an IoT-based energy management solutions provider. , Elmeasure was ...

metering. Panel meters

Energy and Power Monitors , Portable Power Quality Analyzers

Explore the world of Portable Power Analyzers and Power Quality Analyzers. Discover energy metering devices and handheld power monitoring equipment for efficient power consumption analysis. Learn about the applications, features, and benefits of these tools, along with top brands and user reviews, digital panel meter

THE PREPAID METERING SOLUTION

ELMEASURE IS A LEADING PROVIDER OF CUSTOM ENERGY MANAGEMENT SOLUTIONS GLOBALLY. We help industries reduce energy wastage through a wide range of products to ...

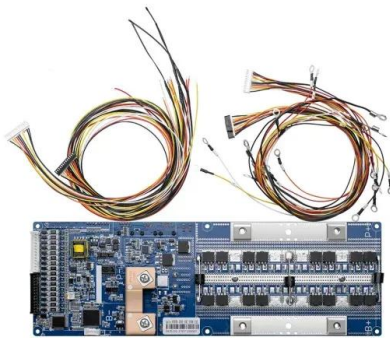

APFC Meter , Automatic Power Factor Controller

Automatic Power Factor Controller Save energy, maintain power factor range to avoid penalties. Save your power costs with APFC panels, trusted by our customers.

Protection and Control , Earth Leakage Relays (ELR)

Protect lives & equipment with Earth Leakage Relays. Accurately detect earth leakage hazards with class 2.0FS relays, programmable trip time, and continuous display of trip leakage current. Wide range of current options from 30mA to ...

Elmeasure , Process Measurements , Transducers and Isolators

Electrical Transducer Get fast and accurate measurements with our Transducers and Isolators. Precise sensing solution for automation/SCADA systems, with easy installation and field configuration options. Measure, record and visualize electrical parameters with a patented custom display and user-friendly interface for remote monitoring and communication.

Multi-channel DC Energy Meter

Elmeasure EDC meter monitor up to 4 DC electrical loads, a compact 96 x 96mm device with an optional feature of communication to remote energy management systems.

Generator Monitoring Unit With Dual Display Meter

Elmeasure Generator Monitoring Device, cost-effective with simplified panel wiring, with features such as programming for Single phase and three phase applications.

Elmeasure , Protection and Control , Power Factor Controllers

Maximize energy efficiency with our Power Factor Controllers. Improve poor power factor and reduce energy consumption for significant savings on energy bills. Features true RMS measurements, simultaneous voltage and current sampling, and 4 quadrant operation. Optional RS485 communication interface available. Panel meters

Generator Monitoring Unit With Dual Display Meter

Elmeasure Generator Monitoring Device, cost-effective with simplified panel wiring, with features such as programming for Single phase and three phase applications. Generator

Monitoring Unit With Dual Display Meter - Elmeasure

Electricity Prepaid Meter Manufacturer in India

Elmeasure Prepaid energy is a single compact device for electricity, gas and water measurements. Recharge your prepaid meter & have an explicit view of energy usage & tariff rates from anywhere. Prepaid energy meters with LoRa supports long-range wireless communication up to a 1-kilometre radius.

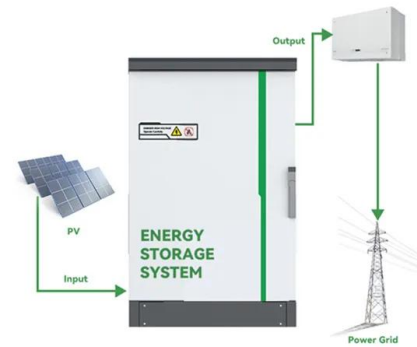

Generator Monitoring Unit With Dual Display Meter

Elmeasure Generator Monitoring Device, cost-effective with simplified panel wiring, with features such as programming for Single phase and three phase applications. Generator Monitoring Unit With Dual Display Meter - Elmeasure

Dual Source Energy Multifunction Meter

Dual-source energy meter collects data from two different sources of energy, thus replacing 2 energy meters, senses dual-source through a 240V AMF connection has dual row display for easy readings.

Digital Panel Meter , Voltmeter , Digital Ammeter

Digital Panel meters are cost-effective and easy to install with full programmability at the site. Our Products VAF meter (Volt-Amp-Freq) has many features such as true RMS readings, Average & phase wise information.

Elmeasure , Energy and Power Monitors , Utility Revenue Meters

Optimize energy & revenue management with our Utility Revenue Meters. A smart, contactless and user-friendly solution that supports electricity, gas, and water measurement. Monitor usage remotely with Theiox IoT platform. Long range communication up to 1km radius with prepaid meter with LoRa. Smart Meter, Prepaid Meter.

Electricity Prepaid Meter Manufacturer in India

Elmeasure Prepaid energy is a single compact device for electricity, gas and water measurements. Recharge your prepaid meter & have an explicit view of energy usage & tariff

rates from anywhere. Prepaid energy meters with LoRa ...

Solenoid based Automatic Transfer Switch

Elmeasure Solenoid Automatic Transfer Switches provide industry-leading solutions for reliability transferring critical load to emergency power solutions.
