

European Solar Energy Storage

Energos infrastructure Peru

Overview

What is Energos infrastructure?

Apollo Funds' joint venture with New Fortress Energy formed Energos Infrastructure, a maritime platform with critical infrastructure to power countries around the world. Learn more about how Energos is helping to provide energy reliability and security.

Who owns Energos infrastructure?

The Platform has been named Energos Infrastructure ("Energos") and is owned approximately 80% by Apollo-managed funds and 20% by NFE. This press release features multimedia.

What is Energos?

Energos is a global marine infrastructure platform underpinned by long-term contracts, benefitting from NFE's LNG downstream operations and development activities, as well as Apollo's leading investment and maritime experience.

What is Energos FSRU?

She is one of three owned Energos FSRUs that operate in Continental Europe (one in Netherlands and two in Germany), and further helps reduce the regional reliance on Russian gas. The Power supports critical energy infrastructure and promotes regional energy security.

Does Energos deliver natural gas to PLN's power plant?

Since 2012, Energos's floating energy infrastructure has delivered natural gas to state electricity company PLN's power plant in Jakarta, West Java. The utilization of the vessel continues to grow as Indonesia further transitions away from coal/diesel to cleaner natural gas.

How many LNG vessels does Energos own?

Formed as part of a previously announced joint venture (JV), Energos is the owner and operator of 11 LNG infrastructure vessels. The 11-vessel portfolio includes six floating storage and regasification units (FSRUs), two LNG carriers (LNGCs), and three floating storage units (FSUs).
