

European Solar Energy Storage

Energy storage battery ebs

51.2V 300AH

Solutions , FPT Industrial , FPT Industrial

Explore the eBS 42 Battery Storage for off-road applications. Experience high energy density, fast charging, and advanced lithium-ion technology for commercial use.

eBS 42: High-Perf Energy Storage Pack , FPT Industrial

Discover the eBS 42 - a 42 kWh battery pack engineered with advanced NMC Lithium-ion technology for zero-emission off-road applications. Learn more today.

EBS , Intelligent & Modular

Invest in a greener future with our large, containerized energy storage solution. Designed for peak shaving, it significantly reduces electricity costs or can even allow your company to operate completely off-grid.

EBS Square

EBS Square was established in 2023 to overcome the energy density and explosion limitations of lithium-ion batteries currently used in mobile and electric vehicles, and has established technology to develop an innovative and uniform electrolyte for all-solid-state batteries.

eBS 37 , FPT Industrial

Thanks also to NMC technology (Lithium Nickel Cobalt Manganese), the most versatile and high-performance solution to date (for Commercial Vehicle applications), the eBS 37 offers quick charging. Furthermore, this advanced, well-designed ...
