## Energy storage climbing assistance service

---

### Concentric , Energy Storage Solutions

We are pioneering energy storage solutions and service that bring resilience, independence, and security necessary for critical infrastructure demands. Concentric provides our customers with best-in-class energy storage solutions, microgrids, and long-term maintenance and services.

### AlphaESS: Your Expert in Battery Energy Storage Systems

AlphaESS is a leading global green energy storage solution and service provider, specializing in tailored solutions for residential and commercial applications.

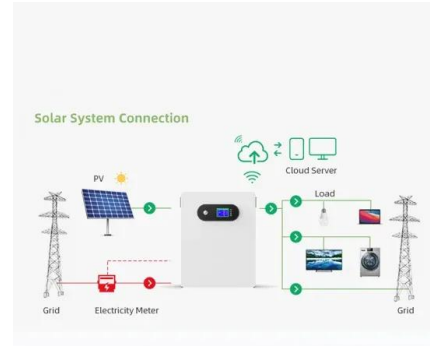

### Energy Storage System Application at High Altitude: Challenges

Imagine building a cutting-edge energy storage system (ESS) at an elevation where even your morning coffee takes longer to boil. High-altitude regions--think 3,000 meters (9,800 feet) and above--are becoming hotbeds for renewable energy projects.

[Energy Vault®](#)

Our long-term energy storage service agreements meet customers where they want to be - both now and in the future - by recognizing and balancing tradeoffs between cost and levels of risk management.

## Energy Storage

FTI Consulting's services in energy storage solutions support the development, financing, offtake, operations, and management of energy storage projects spanning various technologies.

## Energy Storage Consulting , Applus+

Enertis Applus+ BESS consulting services are for battery energy storage project owners, developers, investors, and lenders. They are provided throughout all stages of BESS projects, from design to operation.

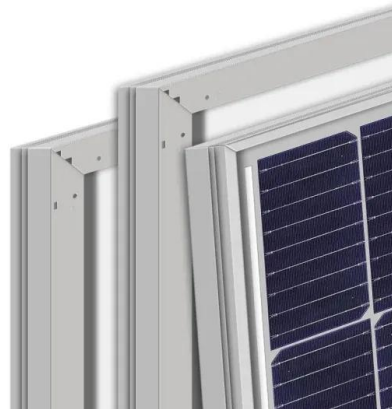

## **Advanced Energy Storage Solutions , Sky Climber Renewables**

Sky Climber Renewables delivers energy storage solutions that play a pivotal role in renewable energy systems. Our services ensure enhanced grid stability, improved energy efficiency, and reliable integration of renewable sources.

## Energy storage advisory

We can help you implement energy storage solutions as part of renewable integration projects, or for ancillary services to support distribution. Our broad range of services runs from market and business case analyses to economic assessments, technology evaluations and independent third-party testing and certification.

## **Climb Assist for Wind Turbine Towers**

Our Climb Assist provides a constant lifting force during tower ascent and descent, significantly reducing fatigue and strain. This boosts health and safety while also augmenting employee satisfaction and retention.
