On April 10, 2025, the world's premier energy storage event, the 13th International Energy Storage Summit and Exhibition (ESIE2025), officially opened at the Beijing Capital International Exhibition Center. Organized by the Zhongguancun Energy Storage Industry Technology Alliance, the China Energy.

We're pleased to share these valuable energy storage and clean energy-focused industry events produced by CESA and/or other organizations. The 16th Annual CESA Market Development Forum (MDF) on October 14-15, 2025, at the Hyatt Regency Mission Bay Spa and Marina in San Diego, CA. This invite-only.

To discuss issues associated with the integration of energy storage devices and to share lessons learned and best practices. Discussing industry best practices for installation, operation, modeling, market issues, safety, and environmental issues related to energy storage. Investigating the impacts. What is the Energy Storage Summit?

Our Summit aims to highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present themselves on the trajectory ahead. As of this year, the UK has reached over 120 MWh of approved grid-scale battery storage, with around 14 GW in the pipeline.

What is the Energy Storage Summit 2026?

2026 is set to be a year of growth for the European energy storage sector, and a pivotal year for the wider energy transition. Our Summit aims to highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present themselves on the trajectory ahead.
