Shell Energy

Under the Shell Energy brand, we provide innovative, reliable and cleaner energy solutions through a portfolio of gas, power, environmental products and energy efficiency offers to businesses and individual customers.

Power

From generation and transmission to transportation and storage, Shell Energy offers the end-to-end wholesale power solutions, utilities, generators, municipalities, and community choice aggregators need.

Power portfolio

To accelerate the transition to net-zero emissions, power is playing an increasingly important role and is being delivered to customers from conventional power plants, renewable energy developments and battery storage assets through a number of ways including power purchase agreements (PPAs).

Battery Energy Storage Systems , Shell Energy

The best part of Shell Energy's BESS Solution is

that we really do it all. Our experienced team will design, supply, deliver, install, operate and maintain the battery for you for a truly tailored ...

Suppliers' Corner

We're committed to streamlining our commercial supply chain and have simplified our working processes accordingly. To make sure the interaction between Shell and our valued suppliers is efficient, we offer all the necessary tools on the SAP Ariba platform.

On-site renewable energy

We help give you more control over your energy costs by reducing or eliminating your dependence on the grid. In turn, you can manage costs, generate net-new cleaner power, and protect against outages.
