## Overview

---

Energy Vault is a global company specializing in and based, long-duration energy storage products. Energy Vault's primary product is a to store energy by stacking heavy blocks made of composite material into a structure, capturing in the elevation gain of the blocks. When demand for is high, these blocks are lowere.

What is Energy Vault SA?

Energy Vault SA offers an energy storage technology utilizing fundamental principles of science to deliver a storage solution that's as compassionate to the planet as it is efficient to build and operate. The Energy Vault solution utilizes the same fundamentals of physics and kinetic energy as pumped hydro but replaces the water with custom.

Who is Energy Vault?

Energy Vault partners globally to deliver unmatched hardware, software, and service solutions.

What is Energy Vault ® partnership?

Energy Vault ® partnership programs are designed to enhance sustainable production design and to encourage global deployment of Energy Vault Solutions™. Energy Vault creates gravity and kinetic based energy storage solutions that are transforming how the world delivers reliable and sustainable electricity.

How did Energy Vault get funding?

In 2019, Energy Vault secured funding from Cemex before going on to secure \$110m of Series B funding to become the first energy storage investment of the SoftBank Vision Fund, and won Fast Company's World Changing Idea Award for transformative utility-scale energy storage.

Why should you choose Energy Vault?

With our vast global network in leadership, management, and contribution,

Energy Vault is well positioned to meet the large and currently unmet demand for sustainable and economical energy storage for renewable energy generation worldwide.

When did Energy Vault close?

Energy Vault closed its last funding round on Feb 14, 2022 from a Post-IPO Equity round. Who are Energy Vault's competitors?

Alternatives and possible competitors to Energy Vault may include Solid Power , Form Energy , and Natron Energy. Energy Vault offers a utility-scale, gravity-based storage solution for renewable energy.

## Energy vault company Samoa

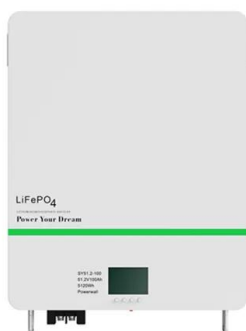

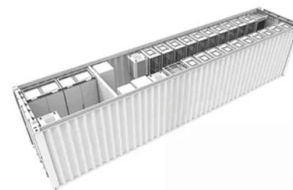

### Energy Vault wins gravity, battery projects in US and SE

...

Energy Vault has secured a US licensing deal for its gravity energy storage technology and awards covering its other technologies there and in Southeast Asia, it said in its Q2 results. The company saw revenue of ...

### Energy Vault partners Enervest for 1GWh BESS in Australia

Energy Vault Holdings has entered an agreement with the Enervest Group to deploy a 1 gigawatt-hour battery energy storage system (BESS) at the Stoney Creek site in New South Wales (NSW), Australia. The collaboration is a significant move towards enhancing grid reliability and supporting the state's renewable energy expansion.

### EV

Our team of energy industry experts are providing short and long duration grid scale energy storage solutions to help utilities, independent power producers and large industrial energy users reduce the cost of abundant clean energy while maintaining power reliability.

## SAMOA ENERGY SECTOR PLAN

### 2.0 The Samoa Energy Sector Plan FY2023/24 -

FY2027/28 17 2.1 Energy Sector Policy  
 Framework 17 ESPO 1: "Renewable Energy  
 Investments Increased" 19 KS 1.1: Expand  
 Investments and Usage of Renewable Energy 20  
 KS 1.2: Improve Infrastructure and Service  
 Quality for Renewable Electricity Generation 21  
 ESPO 2: "Efficiency of Non-Renewable

## Energy Vault

Energy Vault is a global energy storage company specializing in gravity and kinetic energy based, long-duration energy storage products. Energy Vault's primary product is a gravity battery to store energy by stacking heavy blocks made of composite material into a structure, capturing potential energy in the elevation gain of the blocks. When demand for electricity is high, these blocks are lowered...

## Energy Vault®

Our hydrogen solutions leverage both our globally recognized energy experts and our company's commitment to local communities. Why Ultra Long Duration Ultra long or multi-day energy storage needs--from 12 to more than 96 hours--become increasingly important for communities and businesses with a need for continuous power and exposure to grid

## Energy Vault®

Energy Vault's gravity-based solutions combine time-tested energy storage principles, modern engineering, and cutting-edge materials science to deliver long-duration storage with no performance degradation. As we develop and commission our gravity solutions globally, we

continue to research, develop, and deploy multiple long duration solutions.

## Management Presentation

Company and is intended for the recipient hereof only. By accepting this Presentation, you acknowledge and agree that all of the information contained herein or disclosed orally in connection with this Presentation is confidential, that you will not distribute, disclose and use such information for any Energy Vault's forward looking

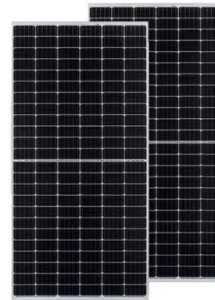

## Solutions

Our proprietary gravity technology solutions offer long duration energy storage that is efficient and cost-effective, supports grid reliability, and enables renewable energy integration. We innovate with gravity-based solutions that emphasize performance and durability.

## Why Energy Vault went from disrupting batteries to selling them

In the long-ago days of 2019, buzzy startup Energy Vault raised a record amount of capital to produce a fundamentally new climate technology: a specialized crane that stores clean energy by stacking heavy blocks. But the

company has since departed from that initial vision, revealing the challenges of taking big swings at clean energy problems while trying to ...
