

## European Solar Energy Storage

# Energy vaults Belgium

## Overview

---

Energy Vault is a global company specializing in and based, long-duration energy storage products. Energy Vault's primary product is a to store energy by stacking heavy blocks made of composite material into a structure, capturing in the elevation gain of the blocks. When demand for is high, these blocks are lowere.

What is Energy Vault?

Energy Vault is a global energy storage company specializing in gravity and kinetic energy based, long-duration energy storage products. Energy Vault's primary product is a gravity battery to store energy by stacking heavy blocks made of composite material into a structure, capturing potential energy in the elevation gain of the blocks.

Does Energy Vault have a storage tower?

Energy Vault's storage tower. Source: Energy Vault Energy Vault has raised USD 100 million (EUR 85m) in Series C funding to support deployments of its gravity-based energy storage technology, which will start in the US in the fourth quarter of 2021, the Swiss company said on Wednesday.

How did Energy Vault get funding?

In 2019, Energy Vault secured funding from Cemex before going on to secure \$110m of Series B funding to become the first energy storage investment of the SoftBank Vision Fund, and won Fast Company's World Changing Idea Award for transformative utility-scale energy storage.

What is Energy Vault ® partnership?

Energy Vault ® partnership programs are designed to enhance sustainable production design and to encourage global deployment of Energy Vault Solutions™. Energy Vault creates gravity and kinetic based energy storage solutions that are transforming how the world delivers reliable and sustainable electricity.

Why should you choose Energy Vault?

With our vast global network in leadership, management, and contribution, Energy Vault is well positioned to meet the large and currently unmet demand for sustainable and economical energy storage for renewable energy generation worldwide.

How did Energy Vault perform in Q3?

In the three months to September 30, 2022, the company had US\$1.7 million in revenue, a net loss of US\$28.8 million and adjusted EBITDA loss of US\$27.2 million. Energy Vault provided a dizzying variety of updates in its Q3 results including expansion into Europe, green hydrogen and a new CFO.

## Green Hydrogen ...

WESTLAKE VILLAGE, Calif., February 22, 2024--Energy Vault Holdings, Inc. (NYSE: NRGV) ("Energy Vault" or the "Company"), a leader in sustainable grid-scale energy storage solutions, today

## Why Energy Vault went from disrupting batteries to selling them

Energy Vault sells the product on longevity: Batteries degrade, but if a G-Vault works for 35 years, the levelized cost of storage goes down. This requires selling to the sorts of companies willing to sink money into novel assets with a longer promised life expectancy than the well-understood lithium-ion options.
