

## European Solar Energy Storage

# Eritrea sunflow solar structures

## Overview

---

What are the benefits of solar energy in Eritrea?

The government of Eritrea has been making efforts to promote the use of alternative sources of energy, especially solar energy, to mitigate the problems associated with the use of fossil fuel. A major benefit of solar energy is that it does not pollute the environment and saves money in the long run even if its installation cost is quite high.

Does Eritrea have solar power?

Eritrea's weather, characterized by long sunny days throughout the year, makes it suitable for harnessing solar power. Data from the wind and solar monitoring stations installed in many parts of Eritrea show that the country has a great potential, around 6 kwh/m<sup>2</sup> of solar energy.

What is Eritrea's main source of energy?

Eritrea's major source of energy is petroleum, which drains the foreign currency reserves of the country and is globally a major cause of pollution. The government of Eritrea has been making efforts to promote the use of alternative sources of energy, especially solar energy, to mitigate the problems associated with the use of fossil fuel.

How much PV capacity does Eritrea have in 2021?

According to the International Renewable Energy Agency (IRENA), Eritrea had just 24 MW of installed PV capacity at the end of 2021. This content is protected by copyright and may not be reused. If you want to cooperate with us and would like to reuse some of our content, please contact: [editors@pv-magazine.com](mailto:editors@pv-magazine.com).

What is Eritrea's national energy policy?

Prospective consultants have until Feb. 23 to submit their proposals. The Eritrea National Energy Policy, which was issued in 2018, aims to increase the

electrification rate across the country. According to the International Renewable Energy Agency (IRENA), Eritrea had just 24 MW of installed PV capacity at the end of 2021.

What is the African Development Fund (ADF) doing in Eritrea?

The African Development Fund (ADF) is helping Eritrea's government to develop a 30 MW solar plant in Dekemhare, in the central part of the African country. The ADF is currently seeking consultants for the project through a tender. The project will include an unspecified amount of battery storage and a 66 kV transmission line.
