

## European Solar Energy Storage

# Esd storage cabinet Denmark

## Overview

---

What is an ESD cabinet?

An ESD cabinet is a type of anti-static storage solution with a strong, steel frame and galvanised steel shelves. It also includes semiconductive bins and labels with protective shields, all supplied with a connector for earth lead.

What are Treston ESD storage systems?

Treston ESD storage systems are modular, innovative and easy to use. The product range includes storage units, ESD shelves, cabinets, bins, drawers and perforated panels. An ESD Protected Area (EPA) is a defined space within which all surfaces, objects, people and ESD Sensitive Devices (ESDs) are kept at the same electrical potential.

What is an ESD protected area (EPA)?

An ESD Protected Area (EPA) is a defined space within which all surfaces, objects, people and ESD Sensitive Devices (ESDs) are kept at the same electrical potential. An EPA can be organised with Treston storage products. A modular anti-static ESD storage solution with user-oriented design and quality materials will work well in any space.

How a modular anti-static ESD storage system works?

A modular anti-static ESD storage solution with user-oriented design and quality materials will work well in any space. With the right kind of a storage system, it's quick and easy to use the stored components, products and tools. Proper storage also keeps tools in good condition and extends their useful life.
