### **Best Practices for ESPC Portfolio Review**

In federal ESPCs, guaranteed energy and energy-related cost savings are established on an annual basis. Measurement and Verification Agencies may use this document in addition to all of FEMP's ESPC resources in awarding and maintaining high-quality and high-value ESPC task orders (TOs). FEMP ESPC guidance, contract document templates and

### **ESPC Best Practices from Life of Contract Field Reviews**

Performance Contracts (ESPCs) with a term up to 25 years to pay for Energy Service Company (ESCO) financed improvements out of annual guaranteed savings. DOE FEMP has traditionally helped agencies by facilitating project development, award, construction, and acceptance, and review of the first annual Measurement and Verification report. FEMP has

### **Resources for Implementing Federal Energy Savings Performance ...**

Agencies should use this document and all of FEMP's ESPC resources to help them award high-quality and high-value ESPC task orders (TOs). FEMP ESPC guidance, contract document ...

## Resources for Implementing Federal Energy Savings Performance Contracts

The Federal Energy Management Program (FEMP) offers resources to help federal agencies implement energy savings performance contracts (ESPCs). ESPC resources are listed by essential education, phases of the ESPC process, and general information. ESPC case studies and training are also available.

## Financial Benefits of ESPCs , Performance Services

While cash flow neutral financing within an existing M& O budget is a major financial advantage of ESPCs, there are many other reasons to use this method regardless of your funding source. This resource article will dig in to five additional financial advantages of energy saving performance contracts vs. traditional funding and construction methods.

## Energy Savings Performance Contracting Best Practices -From ...

utilizing resources from industry groups such as the Energy Services Coalition (ESC), the National Association of Energy Services Companies (NAESCO) or the South- central Partnership for Energy Efficiency as a Resource (SPEER). One of our contributors encouraged awareness of alternative, market -available contract models that are
