Everything solar Qatar

Overview

Who is Qatar Solar Energy?

Toggle Sliding Bar Area Qatar Solar Energy With more than 15 years of research and development with the board members in the solar photovoltaic industry, QSE has become the first vertically integrated PV manufacturer in the MENA region, producing silicon ingots, silicon wafer, PV cells up to the end product «PV modules».

Why should Qatar invest in solar energy?

Solar energy has multiple advantages for Qatar in the form of energy security, improved air quality, reduced GHG emissions, employment opportunities, apart from augmenting water and food security.

Is Qatar a good country for solar power?

With average daily sunshine of around 9.5 hours, low-cloud cover conditions and plentiful space, there is great scope for small, medium as well as large-scale solar power projects in the country. Qatar's global horizontal irradiance is 2,140 kWh per m² per year which makes it well-suited for solar photovoltaic (PV) systems.

What is QSTec doing in Qatar?

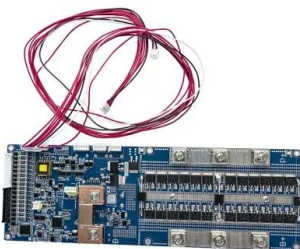

QSTech, a polysilicon plant owned by Qatar Foundation and SolarWorld, is nearing completion and will produce 8,000 tonnes per annum of high grade polysilicon for export to the world's solar energy markets. QSTec is also constructing a 150 MW Solar Module manufacturing facility and a 1.4MW solar farm at Ras Laffan.
