someone explain to me what is going ...

### How do the floor and ceiling functions work on negative numbers?

The correct answer is it depends how you define floor and ceil. You could define as shown here the more common way with always rounding downward or upward on the number line.

### How to represent the floor function using mathematical notation?

4 I suspect that this question can be better articulated as: how can we compute the floor of a given number using real number field operations, rather than by exploiting the printed notation, ...

### How to write ceil and floor in latex?

Is there a macro in latex to write  $\text{ceil}(x)$  and  $\text{floor}(x)$  in short form? The long form  $\text{left ceil}\{x\}\text{right}$   $\text{rceil}$  is a bit lengthy to type every time it is used.
