

European Solar Energy Storage

Flush solar panels Christmas Island

Overview

Why did we install solar & battery storage systems on Christmas Island?

Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park. We installed solar and battery storage systems at two sites on Christmas Island for Parks Australia to provide clean power to their main headquarters and research field station.

Does Christmas Island National Park have solar & battery storage?

Solar and battery storage for Christmas Island National Park. Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park.

Can solar power a seed cleaning shed on Christmas Island?

As part of a scientific research focusing on agriculture on exhausted mining areas, a seed cleaning shed on Christmas Island is being powered by solar+storage.

What does PRL group do for Christmas Island?

PRL Group is committed to building a more diverse and sustainable economy for Christmas Island. We are developing a number of projects in areas such as tourism, renewable energy and fresh food production.

What can Christmas Island do for tourism?

The study includes a detailed assessment of the natural assets of Christmas Island and will assess the potential tourism opportunities suitable for remote island tourism development in the region. The work will produce a range of potential tourism offerings for the island including eco, agricultural and adventure tourism.

Flush solar panels Christmas Island

FLUSH MOUNT SOLAR PANEL BRACKETS

Integrated/ flush solar panels on a metal standing seam roof

We suspect we'll have an easier ride through planning if we show integrated/ flush solar panels on the roof. Integrated panels on tile roofs are pretty common (we have them on our current roof) but we can only find one example (attached image) of integrated panels on a metal standing seam roof which is what we are going for.
