## [Best Electricity Provider In France](#)

Using US Electric Devices In France. If you're moving from a country with a 110V supply (such as the US), you'll need a converter or a transformer (transformateur) to convert your electrical equipment to 240V, though some electrical appliances (for example hair dryers and electric razors) have a 110/240-volt switch.

## **The Power of Reliability with Electric Shelving**

Electric shelving systems offer a variety of pre-programmed automatic movement modes for optimal efficiency. Do you have an aisle that's accessed more frequently than all the others? Set the system to default to keeping that priority aisle open. Need to avoid fully closed aisles to promote ventilation? Set the system to "ventilation park."
