

## European Solar Energy Storage

# French Guiana aker power

## Overview

---

How does ceog fit with French Guiana's energy strategy?

The population of French Guiana is very quickly increasing. Guiana has to face a considerable energy deficit, especially in the west where the demographic growth is booming. By providing several MW of reliable and clean energy, CEOG fits with French Guiana's energy strategy.

Is a solar park in French Guiana ready for green hydrogen production?

French hydrogen technologies developer HDF Energy (EPA: HDF), investment fund Meridiam and petroleum operator SARA have launched construction of a solar park with batteries and 16 MW of electrolysers for green hydrogen production in French Guiana.

What is HDF Energy's \$200 million Centrale Electrique de l'Ouest Guyanais?

HDF Energy's \$200 million Centrale Electrique de l'Ouest Guyanais (CEOG) project is based on its proprietary power-to-power Renewable power plant. The plant will comprise a solar PV park, a 16-MW electrolysis platform, a long-term hydrogen storage unit, two 1.5-MW fuel cell systems, as well as a short-term lithium-ion battery storage unit.
