Europe's Solar Industry at a Crossroads: Green Energy Boom ...

The surge in solar energy installations across Europe, fueled by a flood of inexpensive Chinese solar panel imports, conceals a crisis for the region's local solar manufacturers. Despite a record year for green energy, with a 40% increase in solar capacity, the industry faces a dilemma as cheaper imports and oversupply threaten domestic manufacturers.

Electricity in French Guiana in 2021

In 2021, French Guiana's electricity consumption demonstrated a strong emphasis on low-carbon sources, with about 70% of its electricity generated from clean energy. This includes more than half of its electricity derived from hydropower, which makes up the backbone of the region's low-carbon generation. Solar energy also supplies a modest share of nearly 6%, and biofuels ...
