

European Solar Energy Storage

French Southern Territories ninedot energy

Overview

What is ninedot energy?

With sites in the Bronx, Brooklyn, Queens and Staten Island as well as Westchester County and Long Island, NineDot Energy is helping to make our local power grid cleaner, more resilient, more equitable and less costly, supporting New York's energy transition. NineDot Energy combines "outside-the-box" thinking with collaboration and execution.

Why is ninedot a good place to work?

NineDot's first battery energy site in the Northeast Bronx went live, ready to strengthen the local power grid and provide stable, reliable and resilient power to the surrounding community, and Starbucks became our anchor subscriber. We were named #5 on Crain's New York Business 2023 list of 100 Best Places to Work in New York City.

What is ninedot & how does it work?

NineDot's name derives from the classic mathematical puzzle for sparking out-of-the-box solutions. David, Adam and Nalin combined their skills and experiences in clean-energy analysis, science and entrepreneurship to build exciting and important urban energy projects using "outside-the-box thinking."

Who is ninedot?

NineDot combines real-world experience with local expertise. We were founded and are based in New York City — and we care about the communities around us. A mural created in coordination with students from the Bronx Charter School for Better Learning 2 (BBL2), artist Tijay Mohammed, and ArtBridge.

What does Maddie do at ninedot energy?

Maddie is the Senior Product Development Analyst at NineDot Energy, where she directs research and analyses into new product development and supports

initiatives to optimize the deployment and operations of NineDot products. As NineDot's Senior Talent Acquisition Specialist, Jerneeka sources and recruits talent to join the team.
