Solar Panels

To help your solar panels absorb as much sunlight as possible, it's best to keep them out of the shade. They shouldn't require much cleaning, either. Thanks to a hydrophobic coating, any rain that falls on the surface will fall away - washing away any dirt on the panels in the process.

[Top Tier Solar Panels 2022 : r/solar](#)

Good/great/best panels poorly installed do not fair well. Roof and structural damage although rare, do happen. Customer service counts as well. Panels matter but they are just part of the overall equation and there are other parts/aspects of the solar system that are equally, if not more so, critical to the optimal outcome
