Gabon jiasheng new energy

Overview

Will expanded oil reserves boost Gabon's energy resurgence?

Expanded oil reserves will not only enhance Gabon's significance on the global energy stage, but also contribute towards achieving energy security and new revenues for the country. Gabon's oil and gas resurgence is being driven by a recent offshore discovery, production increases from existing assets and an ambitious Gas Master Plan.

Does Gabon have a resurgence in oil & gas?

Gabon is currently witnessing a resurgence in its oil and gas sector, catalyzed by a recent offshore discovery and a series of production start-ups led by key industry players.

What is happening in Gabon's upstream resurgence?

Recent Discoveries and Production Increases A recent milestone in Gabon's upstream resurgence is the offshore discovery made by BW Energy and Panoro Energy at the DHBSM-2P pilot well on the south extension of the Hibiscus South field.

How will Gabon's offshore discoveries & production start-ups boost investor confidence?

Beyond immediate production gains, Gabon's recent offshore discoveries and production start-ups are set to invigorate investor confidence, attract substantial capital inflows and cultivate an environment conducive to sustained growth.

What does BW energy's dhbsm-1h well mean for Gabon's oil production?

Additionally, BW Energy's recent start-up of the DHBSM-1H well in the Hibiscus South field exemplifies Gabon's oil production capabilities, with output stabilizing at around 5,000-6,000 bpd and an expected recovery of 6.6 million barrels of the 22 million barrels of oil in place.

Will Gabon achieve self-sufficiency in crude oil by 2030?

Gabon is also increasing its refining capacity, with plans to expand SOGARA – the country’s sole refinery – from annually processing 1.2 million to 1.5 million tons of crude oil. This expansion could enable Gabon to achieve self-sufficiency in refined petroleum products by 2030.
