ENERGY COMMODITY TRADING

At SANIA Power, we trade power across borders, buying it in areas where there is a surplus of energy, and flowing it to areas where the demand is high. Take a windy day in Germany as an example. On windy days, wind farms in Germany can produce more power than what can be consumed within ENERGY COMMODITY TRADING - SANIA POWER AG. Home;

NATURAL GAS TRADING

Natural gas markets have a significant effect on the economy and on the individuals who rely on the fuel for electric generation, manufacturing, heating, cooking, and other purposes. There is a physical market in which natural gas is produced, transported, stored, and consumed. There is also a financial market in which physical natural gas is

BUSINESS GROWTH

In the last years, SANIA Power continued executing on the strategic ambition to develop a more diversified business with additional income streams. As a growing energy trading house, we compete with established players to bring

freedom of choice and fair energy prices to producers, suppliers, and consumers. We trade across borders, ensuring the best prices

POWER TRADING

Power (electricity) trading refers to purchasing and selling power between participants in the energy markets. Various forms of power trading are possible depending on the market design, ranging from short-term trading to long-term power purchase agreements. "Market coupling" enables cross-border trading, allowing several European countries to trade on the same power
