Frequently Asked Questions Regarding the Extended Term

During the PSC's consideration of the QF Procedures in early 2022, the Georgia Large Scale Solar Association ("GLSSA") and the Georgia Solar Energy Industries Association ("GASEIA") raised concerns that these costs and conditions could adversely impact Participants who may request a QF interconnection when their existing PPA expires.

How it Works

The panels harness energy from the sun and converts it into usable power in your home. If your system produces more power than you can use at any given time, the excess solar is sent to the Georgia Power grid. Whenever your system is not producing enough energy to meet your

needs, your building will utilize energy from the Georgia Power grid.
