GES hydrogen batteries have taken another step forward

Italian-made hydrogen batteries for storing energy derived from renewable sources, being developed by Green Energy Storage, have taken another step forward. The technology, particularly the chemical part, has been patented. Salvatore Pinto revealed to Il Corriere the chemistry behind the new hydrogen battery patented by GES - Green Energy ...

GES Amsterdam

In December 2016, we acquired our first asset: GES Amsterdam B.V. ("GESA"). GESA is a company operating a Class 1 storage and blending facility for gasoline, gasoline components, and bio fuels with c.300,000m³ gross capacity across 20 storage tanks located in the Port of Amsterdam, the Netherlands.

Independent Energy Storage Company , Fuel Storage ...

GES is building a global network of first-class energy storage assets. Backed by Bluewater Energy and White Deer Energy, our goal is to invest c.\$250 million into brown and greenfield assets, initially in Europe and Asia, in the next five years.

Team

20 persone, 13 paesi: GES è un luogo di frontiera tecnologica e innovazione, in cui talenti con esperienze in diversi contesti di eccellenza internazionale si incontrano per dare forma al futuro dell'energia.

Assets

Green Energy Storage is founded with the goal of reshaping the energy transition with a green and sustainable energy storage system. Following a license agreement with the University of Harvard based on the use of Anthraquinone as an

electrolyte, GES starts the development process for giving life to a redox flow battery system.

About Our Green Energy Company , GES Energy

Find out more about our green energy company. GES Energy is an eco-friendly engineering service provider. Find out more about our green energy company. We manage and operate commercial and industrial solar and battery storage systems, off-grid standalone power systems, microgrid systems, agri-solar farms, and utility-scale solar farms (up
