Will Neoen build a solar park in Ghana?

Solar panels. Featured Image: pornvit\_v/Shutterstock.com Total Petroleum has teamed up with Paris-based power producer Neoen to build 40 MW of solar parks in northern Ghana over the next two years, an official told Xinhua news agency on Tuesday.

What makes Neoen unique?

Neoen is one of the world's leading independent producers of exclusively renewable energy. The geographical and technological diversity of our assets and project portfolio underpins our development and performance. Our "develop to own" business model is unique. We own nearly 93% of our plants, and operate them in our own name in the long term.

What markets does Neoen operate in?

Neoen operates in the solar power, onshore wind farm and battery storage markets. Its turnover for 2023 was €524.4 million, made up of 41% solar power (€213.7 million, an increase of 10% year on year), 48% wind power (€251.2 million, 16% increase) and 11% storage (€58 million).

Where is Neoen based?

In 2021, Neoen began construction on the Kaban Green Power Hub (157 MW) and Goyder South Stage wind farm (412 MW) in Australia. The Bulgana Green Power Hub (194 MW of wind power and 20 MW of battery storage), also located in Australia was commissioned in December 2021.

How much power does Neoen have in 2022?

In late 2022, Neoen began construction on Storen Power Reserve (40 MW / 40 MWh at the time, now 52 MW / 52 MWh), its first battery and second asset in Sweden, as well as in Australia, with Blyth Battery (200 MW / 400 MWh) and Western Downs Battery, where capacity is now 270 MW / 540 MWh.

Does Neoen build a solar farm in France?
