

European Solar Energy Storage

Goodwe energy storage inverter

BASIC APPLICATION

Storage systems have been proven to be "extremely lucrative" for commercial and industrial (C&I) fields.

Overview

The GoodWe ES series bi-directional energy storage inverter can be used for both on-grid and off-grid PV systems, with the ability to control the flow of energy intelligently.

The GoodWe ES series bi-directional energy storage inverter can be used for both on-grid and off-grid PV systems, with the ability to control the flow of energy intelligently.

The GoodWe ES series bi-directional energy storage inverter can be used for both on-grid and off-grid PV systems, with the ability to control the flow of energy intelligently. During the day, the PV array generates electricity which can be provided either to the loads, fed into the grid or charge.

The GoodWe ET series is a Three-Phase, high-voltage, energy storage inverter that provides enhanced energy independence and maximises self-consumption for reduced electricity bills, through an export limit feature and time-of-use shifts. Covering a power range of 5 kW to 10 kW, the ET series allows.

As a self-styled “smart energy innovator“, GoodWe prides itself on offering high-performance solar inverters and battery storage solutions for residential and commercial applications. With a focus on efficiency and reliability, GoodWe products integrate seamlessly into various energy systems.

GoodWe provides a solution to generate clean electricity for your own solar-powered home. When it comes to residential solutions featuring superior safety and easy installation, GoodWe is the ideal choice for homeowners to going solar. Enjoy your unparalleled experience of green energy, optimal.

GoodWe ESA Series is an all-in-one solar and storage solution which integrates the inverter, battery charger, UPS-level switching and battery enclosure into a pre-wired modular system for easier and faster installation. The compact, elegantly designed and robust unit is IP65 rated so it can be.

With the hybrid inverter series such as ET Plus+, BT, ES G2, N-ET Plus+ or EM,

GoodWe offers sophisticated solutions for anyone who wants to combine self-consumption, emergency power supply and storage integration in one system. The devices support both high-voltage and low-voltage batteries, have.

Goodwe energy storage inverter

GoodWe Unveils Next-Gen ET G2 Hybrid Inverter and Energy Storage ...

Available in 6kW to 15kW models, the ET G2 is designed to meet the growing energy needs of modern households by combining advanced inverter technology with scalable energy storage.

Energy Storage Solutions

The GoodWe ES series bi-directional energy storage inverter can be used for both on-grid and off-grid PV systems, with the ability to control the flow of energy intelligently.

GoodWe launches 125 kW/261 kWh all-in-one C& I battery

GoodWe has introduced a 125 kW/261 kWh all-in-one battery for commercial and industrial use in China, with applications spanning factories, farms, EV charging stations, commercial sites, and grid

SBP G2

The GoodWe SBP G2 Series is an AC-coupled retrofit solution, which is able to upgrade an existing single-phase or three-phase on-grid PV

system into an energy storage system by adding a battery.

Residential & Small Commercial Energy Storage ...

The GoodWe ET series is a Three-Phase, high-voltage, energy storage inverter that provides enhanced energy independence and maximises self-consumption for reduced electricity bills, through an export limit feature and time-of-use shifts.

Solar Inverters

GoodWe's residential energy storage products are designed to provide homeowners with reliable and efficient energy solutions. These systems seamlessly integrate with solar panels to store excess energy, ensuring a continuous power supply even during grid outages.

Residential & Small Commercial Energy Storage Solutions

The GoodWe ET series is a Three-Phase, high-voltage, energy storage inverter that provides enhanced energy independence and maximises self-consumption for reduced electricity bills, through an export limit feature and time-of-use shifts.

GoodWe Inverter and Battery Review 2025

Discover GoodWe inverters and batteries in our 2025 review. Explore costs, performance, and top models for residential and commercial solar systems.

- ✓ LIQUID/AIR COOLING
- ✓ INTELLIGENT INTEGRATION
- ✓ PROTECTION IP54/IP55
- ✓ BATTERY /6000 CYCLES

GoodWe hybrid inverters

GoodWe hybrid inverters stand for a smart combination of PV generation, battery storage and grid power - ideal for users who want to increase their self-consumption rate and integrate backup functionality at the same time.

ESA Series-GoodWe ESA Series 5 Kw+10.8 Kwh Single Phase Home Storage

GoodWe ESA Series is an all-in-one solar and storage solution which integrates the inverter, battery charger, UPS-level switching and battery enclosure into a pre-wired modular system for easier and faster installation.
