

## European Solar Energy Storage

# Government subsidy for containerized battery storage in Poland

## Overview

---

Learn about Poland's €1 billion energy storage subsidy aimed at installing 5.4 GWh of BESS by 2028, strengthening grid stability and accelerating the green transition.

Learn about Poland's €1 billion energy storage subsidy aimed at installing 5.4 GWh of BESS by 2028, strengthening grid stability and accelerating the green transition.

The call for proposals of projects to be subsidised under the Energy Storage Systems scheme financed from the National Recover and Resilience Plan opened on 17 February 2025. The scheme's objective is to build a large-scale battery energy storage system (BESS). What projects are eligible for the.

Poland has finalized a comprehensive subsidy program aimed at accelerating the deployment of battery energy storage systems (BESS), with a total budget of PLN 4 billion (approximately €1 billion). The program is co-financed by the European Union's Modernization Fund and the Recovery and Resilience.

Poland's 2024-2025 energy storage subsidy programs are a key element in the country's energy transition. With the growing demand for stable energy sources and the integration of renewables into the grid, energy storage facilities take on special importance. The National Fund for Environmental.

Poland has marked a significant milestone in its energy transformation journey with the launch of a major subsidy scheme for energy storage projects. The Polish National Fund for Environmental Protection and Water Management (NFOŚiGW) announced on April 4, 2025, that it would begin accepting.

Poland's National Fund for Environmental Protection and Water Management (NFOŚiGW) has opened a call for applications to co-finance electricity storage facilities, with funding from the Modernisation Fund. The programme has a total budget of \$1.02 billion and aims to improve grid stability and.

The call for applications for the Electricity Storage and Related Infrastructure Programme, aimed at enhancing the stability of the Polish power grid, will

remain open until May 30, 2025. From ESS News The Polish National Fund for Environmental Protection and Water Management (NFOŚiGW) opened on. What are Poland's energy storage subsidy programs?

Poland's 2024-2025 energy storage subsidy programs are a key element in the country's energy transition. With the growing demand for stable energy sources and the integration of renewables into the grid, energy storage facilities take on special importance.

How can energy storage facilities be improved in Poland?

Introduction of preferential loans for companies investing in energy storage facilities. Increasing the installed capacity of energy storage facilities by 300% by the end of 2025. Increasing the share of RES in Poland's energy mix to 35% in 2025. Reduction of CO2 emissions by 15 million tons per year.

Are subsidies available for energy storage facilities?

Subsidies are available for energy storage facilities, as long as they are integrated with the energy source being implemented as part of the investment. The program provides support covering up to 20% of eligible costs. The continuation of both programs is planned with a larger budget.

Will energy storage systems projects be subsidised under the National Recover & Resilience Plan?

The call for proposals of projects to be subsidised under the Energy Storage Systems scheme financed from the National Recover and Resilience Plan opened on 17 February 2025. More ».

How much PLN will be distributed under the energy subsidy scheme?

A total of PLN 4 billion (\$1 billion) will be distributed under the subsidy scheme by the end of 2025 in a bid to bring online more than 5 GWh of energy storage projects by 2028.

How much PLN can a storage facility get subsidized?

The program provides subsidies of up to PLN 17,000 for electricity storage facilities. The minimum storage capacity eligible for support is 2 kWh, with a maximum subsidy of PLN 6,000 per kWh. Such support provides a strong incentive to invest in these technologies.

## Government subsidy for containerized battery storage in Poland

### Aid scheme for construction of electricity storage

Subsidies in the form of grants are to cover a maximum of 45 percent of the total investment cost. The aid intensity can be increased by 20 percentage points for small ...

### Poland opens EUR 980m energy storage subsidy scheme

Eligible projects must involve the construction of energy storage facilities of no less than 2 MW/4 MWh of capacity. The funding will be available in the form of grants and loans, ...

### Poland opens funding for energy storage projects

Poland's National Fund for Environmental Protection and Water Management (NFO?iGW) has opened a call for applications to co-finance electricity storage facilities, with ...

### Energy storage subsidy programs in Poland for 2024 ...

Energy storage subsidy programs in Poland are a

key component of the country's energy transition. These initiatives support prosumers, businesses and ...

## Poland's \$1 billion energy storage subsidy scheme opens for

The Polish National Fund for Environmental Protection and Water Management (NFO?iGW) opened on April 4 a call for applications to co-finance energy storage facilities. ...

## Subsidies for energy storage systems , Rödl & Partner

The call for proposals of projects to be subsidised under the Energy Storage Systems scheme financed from the National Recover and Resilience Plan opened on 17 ...

## Energy storage subsidy programs in Poland for 2024-2025

Energy storage subsidy programs in Poland are a key component of the country's energy transition. These initiatives support prosumers, businesses and farmers, influencing a greater ...

## New Subsidy schemes for Battery Energy Storage Systems (BESS)

Eligible applicants include entrepreneurs registered in Poland, municipal companies with local government participation, and members of energy cooperatives. The aid ...

48V 100Ah

## New Subsidy schemes for Battery Energy Storage ...

Eligible applicants include entrepreneurs registered in Poland, municipal companies with local government participation, and members of ...

## Poland Energy Storage Subsidy: EUR1 Billion Program Targets 5.4 ...

Learn about Poland's EUR1 billion energy storage subsidy aimed at installing 5.4 GWh of BESS by 2028, strengthening grid stability and accelerating the green transition.

## Poland finalizes 5 GWh energy storage subsidy scheme

Following a public consultation launched in July 2024, the Polish Ministry of Climate and Environment has finalized its energy storage subsidy program which aims to ...

## Poland finalizes 5 GWh energy storage subsidy scheme

Following a public consultation launched in July 2024, the Polish Ministry of Climate and Environment has finalized its energy storage subsidy ...
