

European Solar Energy Storage

Government subsidy for containerized solar power plant in Vietnam

Overview

Most significantly, the Decision introduces separate tariffs for solar power projects that incorporate battery energy storage systems (BESS). This development reflects a growing policy emphasis on grid flexibility and energy reliability.

Most significantly, the Decision introduces separate tariffs for solar power projects that incorporate battery energy storage systems (BESS). This development reflects a growing policy emphasis on grid flexibility and energy reliability.

On April 10, 2025, the Ministry of Industry and Trade (MOIT) issued Decision 988/QD-BCT (“Decision”), updating Vietnam’s feed-in tariff (FiT) rates for solar power projects. These tariffs, effective under the framework of Circular 09/2025/TT-BCT issued on February 1, 2025 (“Circular”), will apply.

The Vietnamese authorities released the feed-in tariff levels for ground-mounted and floating PV plants, with or without storage. Vietnam's Ministry of Industry and Trade (MOIT) has published the new feed-in tariffs for utility-scale solar plants. For projects without battery storage, the tariff.

ment Master Plan will be subject to the Prime Minister’s approval. While the requirement for receiving the Prime Minister’s approval was previously required for projects which exceed 50 MW (and were not in the National Power Development Master Plan), this differs to Decision No. 11 in relation to.

Vietnam’s Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, incorporating energy storage systems. The updated scheme highlights the growing importance of storage in stabilizing the.

On April 6, 2020, the Prime Minister of Vietnam issued Decision No. 13/2020/QD-TTg on the mechanism for encouraging the development of solar power in Vietnam (“Decision 13”). Decision 13, which will take effect on May 22, 2020, introduces a number of new incentives and mechanisms for investors in.

Vietnam's solar power sector is governed by a number of key regulations and policies aimed at promoting the development of renewable energy while managing the challenges associated with rapid growth. The FiT program has been a major driver of solar power development in Vietnam, offering a tariff of. What does Vietnam's Solar Policy update mean for energy storage?

Vietnam's solar policy update highlights growing role of energy storage. (Photo: iStock) Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, incorporating energy storage systems.

What is the new tariff structure for solar projects in Vietnam?

Under the updated tariff structure, solar projects are now divided into ground-mounted and floating categories, and segmented further by region—North, Central, and South Vietnam. Tariffs are calibrated based on solar resource availability, infrastructure costs, and local electricity demand, with higher rates awarded to projects that integrate ESS.

How much does a solar plant cost in Vietnam?

Vietnam's Ministry of Industry and Trade (MoIT) has published the new feed-in tariffs for utility-scale solar plants. For projects without battery storage, the tariff will be VND 1,382.7 (\$0.053)/kWh for the northern part of the country, VND 1,107.1/kWh for the central part, and VND 1,012.0/kWh for the southern region.

Why has the Vietnamese government temporarily suspended solar projects?

To address the rapid growth and grid capacity issues, the Vietnamese government has temporarily suspended new approvals for large-scale solar projects. This measure aims to manage the grid's ability to integrate new capacity and transition from the FiT scheme to an auction-based system for project approval and pricing.

How is solar energy regulated in Vietnam?

Vietnam's solar power sector is governed by a number of key regulations and policies aimed at promoting the development of renewable energy while managing the challenges associated with rapid growth.

Why is a feed-in tariff important for solar projects in Vietnam?

TARIFFS IT IS IMPORTANT FOR INVESTORS AND DEVELOPERS TO ACT FAST. In 2017, the introduction of the feed-in-tariff (“FiT”) of 9.35 US cents per kilowatt hour¹ by the Vietnamese Ministry of Industry and Trade (“MOIT”) generated significant interest in solar projects in Vietnam, especially in the southern regions of Vietnam which are only available

Vietnam Revamps Solar Tariffs with Regional Rates and Storage

Vietnam's Ministry of Industry and Trade (MOIT) has unveiled a revised feed-in tariff (FIT) framework for solar power, incorporating location-based pricing and, for the first ...

Vietnam's Solar Power Industry 2025: Policy Shifts, ...

Vietnam's solar power industry has grown rapidly since 2017, driven by generous feed-in tariffs and strong government support. The country ...

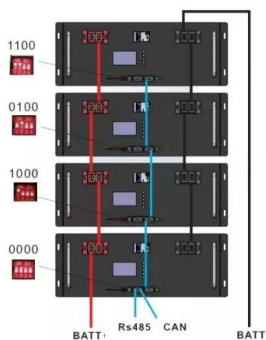

Numerous incentives offered for renewable, new energy electricity

The Government has stipulated a series of investment incentives to promote the development of renewable and new energy, including exemptions from land use and land ...

New Incentives for Solar Power Projects in Vietnam

New Incentives for Solar Power Projects in

Vietnam On April 6, 2020, the Prime Minister of Vietnam issued Decision No. 13/2020/QĐ-TTg on the mechanism for encouraging the ...

Vietnam raises solar feed-in tariffs with energy storage, regional

Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, ...

Our Government - The White House

The Federal Government is composed of three distinct branches: legislative, executive, and judicial, whose powers are vested by the U.S. Constitution in the Congress, the President, and ...

Vietnam unveils new incentives for solar and wind power projects

Offshore wind power and green hydrogen projects in Vietnam may soon benefit from unprecedented incentives, including fee exemptions, guaranteed electricity volumes, and ...

New Incentives for Solar Power Projects in Vietnam

New Incentives for Solar Power Projects in Vietnam On April 6, 2020, the Prime Minister of Vietnam issued Decision No. 13/2020/QĐ-TTg on the mechanism ...

Vietnam publishes feed-in tariffs for large-scale solar ...

The Vietnamese authorities released the feed-in tariff levels for ground-mounted and floating PV plants, with or without storage.

What is Government? , American Government

Americans are often unaware of the pervasiveness of government in their everyday lives, and many are unsure precisely what it does. Here we will look at what government is, what it does, ...

GOVERNMENT Definition & Meaning

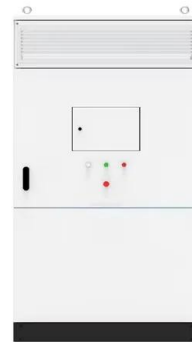

The meaning of GOVERNMENT is the body of persons that constitutes the governing authority of a political unit or organization. How to use government in a sentence.

Vietnam's Solar Feed-in Tariffs in 2025: Incentivizing Energy

...

Most significantly, the Decision introduces separate tariffs for solar power projects that incorporate battery energy storage systems (BESS). This development reflects a growing ...

Government

Government is a means by which organizational policies are enforced, as well as a mechanism for determining policy. In many countries, the government has a kind of constitution, a statement ...

1.1 What is Government - American Government and Politics

Americans are often unaware of the pervasiveness of government in their everyday lives, and many are unsure precisely what it does. Here we will look at what government is, what it does, ...

Vietnam publishes feed-in tariffs for large-scale solar-plus-storage

The Vietnamese authorities released the feed-in tariff levels for ground-mounted and floating PV plants, with or without storage.

Vietnam's Solar Power Industry 2025: Policy Shifts, Growth, ...

Vietnam's solar power industry has grown rapidly since 2017, driven by generous feed-in tariffs and strong government support. The country now has one of the highest ...

Vietnam raises solar feed-in tariffs with energy ...

Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based ...

Vietnam unveils new incentives for solar and wind ...
