

European Solar Energy Storage

Government subsidy for mobile pv generator in Bulgaria

Overview

As part of the National Recovery and Resilience Plan and decarbonization efforts, the Ministry of Energy of Bulgaria is receiving applications from households for grants of 100% for solar thermal collectors and up to 70% for photovoltaic installations with or without battery storage.

As part of the National Recovery and Resilience Plan and decarbonization efforts, the Ministry of Energy of Bulgaria is receiving applications from households for grants of 100% for solar thermal collectors and up to 70% for photovoltaic installations with or without battery storage.

Bulgarian households can apply for grants for photovoltaic systems and solar collectors for own consumption until November 10. The government's program is worth EUR 123 million, of which EUR 40.8 million is for the first round. As part of the National Recovery and Resilience Plan and.

Bulgarian households can apply for grants to install photovoltaic systems and solar collectors for own consumption. As part of the National Recovery and Resilience Plan, the Ministry of Energy of Bulgaria has financed grants for households of 100% for solar thermal collectors and 70% for.

The Ministry of Energy announced for public consultation a procedure by which Bulgarian households can benefit from financing for the construction of photovoltaic systems. Eligible applicants are all natural persons, Bulgarian citizens, citizens of another Member State of the European Union or.

Bulgaria has greenlit 249 proposals for the installation of renewable energy and battery storage capacity worth a total of BGN 526 million (USD 293.1m/EUR 268.9m) to receive funding under the National Recovery and Resilience Plan (NRRP). The Verila solar power plant in Bulgaria. Source: Electrohold.

The Bulgarian Ministry of Energy has approved €268 million in state aid for 249 renewable energy projects, including energy storage units. These projects were selected under two funding rounds of the National Recovery and Resilience Plan. The Bulgarian government aims to accelerate the

deployment.

The Bulgarian Ministry of Energy has announced that a BGN 240 million (\$134 million) rebate scheme is now open for applications from households seeking to install solar water heating systems and rooftop PV arrays, potentially coupled with battery energy storage systems. The Bulgarian Ministry of. How much is NRRP funding in Bulgaria?

(BGN 1.0 = USD 0.557/EUR 0.511) Bulgaria has greenlit 249 proposals for the installation of renewable energy and battery storage capacity worth a total of BGN 526 million (USD 293.1m/EUR 268.9m) to receive funding under the National Recovery and Resilience Plan (NRRP).

How much money will be distributed from Bulgaria's National Recovery & Resilience Plan?

Following the final approval from the European Commission, a total of BGN 140 million will be distributed from Bulgaria's National Recovery and Resilience Plan, with the remaining sum coming from additional state and private sector funding. As much as BGN 80 million will be distributed in the first funding round.

How much money can a PV system be financed?

The PV systems no larger than 10 kWp will be financed up to 70% with the maximum sum of BGN 15,000. In order to receive funding, households must be the applicant's permanent place of residence and use an inefficient heating source, such as wood or coal-burning stoves, boilers, or a fireplaces.
