An updated compilation of all the grants, rebates and subsidies that you can apply for in Spain for your self-consumption installation. Spain is one of the countries in Europe with the most hours of sunlight. This is a fact that we can and must take advantage of to continue fighting climate change.

And although the initial outlay is high, grants, discounts and rebates are out there to help you reduce it, meaning the time it takes to start capitalising on your investment may well be reduced – possibly, quite significantly. Financial assistance or bonuses, either to aid with the cost of.

Spain's €700M BESS Container Subsidy isn't just a pile of cash—it's a golden ticket for energy pros. This piece breaks down who qualifies (hint: standard BESS gets €250/kWh, grid-forming systems score €300/kWh), how to navigate the application maze (deadline July 15, 2025 —mark it!), and why.
