# Government subsidy for modular solar power container in New Zealand

## Overview

---

Financial incentives such as direct subsidies have played a pivotal role in boosting solar power in many countries worldwide. Unfortunately, there are no subsidies or feed-in tariffs for solar power in New Zealand, and there never have been.

Financial incentives such as direct subsidies have played a pivotal role in boosting solar power in many countries worldwide. Unfortunately, there are no subsidies or feed-in tariffs for solar power in New Zealand, and there never have been.

**Solar Subsidy and Rebate:** At the heart of Labour's solar strategy is the solar subsidy. Households are set to benefit from a \$2,000 solar rebate to promote rooftop solar adoption. What's more, an additional \$2,000 bonus awaits those incorporating a battery into their systems. Community Solar.

The Solar Energy market size in New Zealand is expected to grow at a CAGR of greater than 3%. The market is diversified based on residential, commercial & industrial users and the market is governed by five major players. In 2007, a government subsidy for a solar hot water system was launched. An.

The government has committed \$28 million to support community-based renewable energy projects to help households afford and secure the energy they need. This fund supports the government's effort to build energy resilience in communities. The Community Renewable Energy Fund is now administered by.
