

## European Solar Energy Storage

# Government subsidy for pv storage container in Bulgaria

## Overview

---

Capacity and Grants: Up to 1.9 GWh of new capacity will be subsidized, with grants covering up to 50% of eligible costs, capped at BGN 156,466 (€79,000) per MWh of usable capacity (excluding VAT). Eligibility: Open to companies of all sizes, including micro, small, medium, and large.

Capacity and Grants: Up to 1.9 GWh of new capacity will be subsidized, with grants covering up to 50% of eligible costs, capped at BGN 156,466 (€79,000) per MWh of usable capacity (excluding VAT). Eligibility: Open to companies of all sizes, including micro, small, medium, and large.

The Bulgarian Ministry of Energy has opened a public consultation for a new round targeting 1.9 GWh of standalone storage capacity, building on the success of its initial RESTORE procurement, which backed nearly 10 GWh of energy storage development. From ESS News Bulgaria's Ministry of Energy has.

Developers of 82 standalone battery storage projects in Bulgaria, for an overall 9.71 GWh in capacity, got approval for EUR 587 million in subsidies from the Ministry of Energy. Another 30 landed below the line, but the government intends to boost the program by EUR 120 million. More than four.

The Ministry of Energy has launched a public consultation for RESTORE 2, a new subsidy program designed to facilitate the development of 1.9 GWh of standalone battery energy storage systems (BESS). This initiative follows the strong momentum of the first RESTORE procurement round, which far.

city (gr , which were under repair, a strong water hammer occurred and the facility was literally destroyed. The damage is such that r pairs could hardly be made and it will probably be necessary to completely rebuild the power plant. As a possible reason, sources from "Capital" point to the lack.

Bulgaria is launching a public consultation into a grant auction scheme for renewable energy projects and up to 350MW of energy storage facilities. It is the country's first clean energy auction, and will also support proposed renewable generation capacity of 570MW for wind and solar for the first.

The Ministry of Energy of Bulgaria prepared EUR 589 million in grants for standalone energy storage projects. The deadline for applications is November 21. With the surge in photovoltaic capacity, ambitious plans for renewables overall and a collapse in the coal power segment, Bulgaria needs urgent. How much money is needed for energy storage projects in Bulgaria?

The Ministry of Energy of Bulgaria prepared EUR 589 million in grants for standalone energy storage projects. The deadline for applications is November 21. With the surge in photovoltaic capacity, ambitious plans for renewables overall and a collapse in the coal power segment, Bulgaria needs urgent grid upgrades alongside energy storage.

How will the selected storage systems be distributed in Bulgaria?

The selected storage systems will be geographically distributed across Bulgaria and connected either to the national transmission grid or local distribution networks. All awarded projects must be operational by March 2026.

What does Bulgaria's surge in storage capacity mean for Europe?

As Europe races toward climate neutrality, Bulgaria's surge in storage capacity signals a shift not only in national priorities but also in regional energy dynamics.

How much money does the NRRP provide for energy projects in Bulgaria?

Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has selected 82 projects that will collectively receive BGN 1.15 billion (approximately \$675 million) in public funding.
