

## European Solar Energy Storage

# Government subsidy for solar container price in Indonesia

## Overview

---

By taking advantage of incentives such as the Net Metering Program, tax incentives, low-interest loans, and feed-in tariffs, consumers can not only reduce their carbon footprint but also benefit financially from investing in solar energy.

By taking advantage of incentives such as the Net Metering Program, tax incentives, low-interest loans, and feed-in tariffs, consumers can not only reduce their carbon footprint but also benefit financially from investing in solar energy.

The Net Metering Program provides a financial incentive for individuals and businesses to invest in solar energy systems as it allows them to offset their electricity bills and even earn money by selling surplus energy. \*\*Tax Incentives\*\* In addition to the Net Metering Program, the Indonesian.

The International Institute for Sustainable Development (IISD) is an independent think tank championing sustainable solutions to 21st-century problems. Our mission is to promote human development and environmental sustainability. We do this through research, analysis and knowledge products that.

In 2024, the government allocated Rp 386.9 trillion (\$23.9 billion) for energy subsidies, which included: Solar Diesel Subsidy (Rp 89.7 trillion): The government covers 43 percent of the market price of Rp 11,950 per liter for Solar diesel, equivalent to Rp 5,150 per liter. Gasoline Subsidy (Rp.

Indonesia has officially launched its carbon trading system, allowing companies to trade carbon quotas (PTB) or carbon credits (SPE GRK) based on emissions and CO<sub>2</sub> absorption. Cap-and-trade: Firms buy/sell emission allowances. Carbon credits: Issued to low-emission projects, tradable for profit.

This report proposes a renewable energy (RE) subsidy mechanism to close the gap between the costs of renewable power and conventional power generation, taking into account the additional economic benefits of renewable

power for Indonesia. The subsidy should be calculated as the difference between.

DIGIVESTASI - The Minister of Energy and Mineral Resources (ESDM), Arifin Tasrif, revealed that the government is considering a subsidy range of Rp 1,000 to Rp 3,000 per liter for diesel fuel in 2025. This proposal will be included in the Draft State Budget (RAPBN) for 2025. "We propose a fixed.
